## **Dog Inspection:**

Date: \_\_\_\_\_

Apartment: \_\_\_\_\_ Floor/Floors: \_\_\_\_\_

Dear Resident:

Pronto Pest Management, Inc. will be doing an inspection on the following date \_\_\_\_\_ for bed bugs with a scent detection dog. Please do the following so that the highest accuracy rate of finding residences with live bed bugs can be obtained.

1. Any pets will need to be removed to an area not involved in the search.
2. Toys of any sort, pet food and water need to be non-accessible to the dog.
3. Noise and human distraction must be minimized to create the most effective search environment for the dog.
4. Air conditioning/heaters/fans need to be turned off 20 minutes prior to the dog's arrival, close all windows & door walls.
5. Extinguish all smoking materials within the residence 2 hours prior to inspection including any odor products such as incense and plug in deodorizers.
6. Pick up as much clutter as possible to allow the dog access to the entire residence.
7. Dispose of all leftover food items so the dog is not distracted.
8. Thoroughly vacuum.
9. Put away all cleaning and chemical products.
10. **Important:** Remove all linens from the mattress.
11. Canines will be placed on furniture during inspection when deemed necessary by canine handler.

Note: Any resident allergic to dogs please notify management so special arrangements can be made.

If you have any questions please call the office.
